

# Manual Dishwashing Procedure

## (Four-Compartment Sink)

<b>Pre-Flush</b>	<b>Wash</b>	<b>Rinse</b>	<b>Sanitize</b>
<b>Empty/scrape any dishes of excess contents</b>	<b>Hot Water</b> (about 120°F) + <b>Detergent</b>	<b>Hot Water Only</b> (about 120°F)	<b>Room Temperature Water</b> (about 75°F) + <b>Sanitizing Solution</b>

### Approved Sanitizing Solutions:

**Chlorine = 50 ppm**  
**Iodine = 12.5 ppm**  
**Quat (QACs) = 200 ppm**  
**High temperature only = more than 165°F**

### Ratios (Chemical : Water)

**Chlorine = ½ teaspoon of bleach per gallon of water**  
**Iodine and Quat (QACs) = use according to manufacturer instructions**  
**High temperature only = calibrated by a professional**
