Overview

This Health Fair Planning Guide provides strategies and information for organizations to plan, implement and evaluate a successful health fair. Some health fairs are complex events with food vendors, activities and multiple partner agencies, while others may simply offer a health screening or flu shot.

Whatever the scope of your health fair, the contents of this guide can be modified to ensure a quality event that benefits the health of your community.

Objectives

A health fair may be an event that:

- Increases health awareness by providing health screenings, activities, materials, demonstrations, and information
- Increases awareness of Gwinnett County health services and resources
- Motivates participants to make positive health behavior changes
- Provides immunizations for children and adults
- Teaches self-care practices
- Identifies topics and participants for future educational health programs

Planning

Successful health fairs often require a great deal of planning. Depending on the size and nature of the events, a health fair may require six months to one year of preparation time.

The first task in planning a health fair is to identify the health fair leadership, a chair or co-chairs that will guide the planning and implementation process. Forming the planning/coordinating committee a year in advance may not be necessary if this is not the first health fair you’ve conducted or if the health fair is going to be a small event. The size and number of committees will vary depending on the expected number of participants.
Committees

Chairs
Your health fair team may have a single chairperson or that responsibility may be shared between co-chairs. A chairperson must have sufficient time to dedicate to the project.

Planning Committee
Members of the Planning Committee guide the planning phase of a health fair. They identify individuals to serve on subcommittees and provide leadership and coordination to subcommittees. Planning Committees vary in size according to the nature and scope of a health fair.

- Planning Committee Members may represent the following groups:
  - Health Professionals: physicians, nurses, public health
  - Healthcare Organizations: hospitals, home health agencies, clinics, nursing homes, retirement centers, emergency medical services
  - Schools
  - Faith Groups
  - Employers
  - Media
  - Members of your target audience

- A broad based community planning committee should provide:
  - Widespread support and better attendance
  - Ideas that better meet the unique needs of people in the community
  - Limited time and location conflicts with other community activities
  - More people to share the work
  - More media promotion and community attention

Duties
- Identify the target audience
- Develop a theme, such as “Family Health Affair” or “Spring into Health”
• Select the activities, education and information best suited to your audience

*Note: Avoid vendors that present health messages that are not research-based. Also, make sure the subcommittees stay within budget.*

• Select a date
• Identify possible locations
• Develop a timeline
• Recruit subcommittee members and provide oversight to subcommittees
• Identify potential donors, sponsors and vendors
• Coordinate contact of all donors, sponsors, vendors and booth participant

---

**Ensure That Planning Committee Members** are available the day of the fair to welcome vendors and visitors, thank volunteers, assist in the general management of events and “put out the inevitable fires.”

• Set and manage the budget. Consider:
  - Publicity and promotion costs
  - Rentals of equipment, tables, chairs, audiovisual, etc.

  *Note: Outdoor locations may require rental of portable bathroom facilities*
  - Decorations
  - Refreshments and lunches for participants, volunteers, and people in booths
  - Printing and mailing
  - Permits and insurance requirements

• Set policies for budget management and reimbursement of expenses.
• Identify the person responsible for writing and signing checks. Consider:
  - How will deposits for equipment, tables, etc. be handled?
  - How will records of expenditures be maintained?
  - What are the policies regarding handling cash?

• Create a schedule, including opening and closing times, lunch, dinner, etc.
Subcommittees

Clinical Subcommittee

Health professionals on the clinical subcommittee can help determine what is appropriate to include in a health fair for their target audience. Not all brochures, giveaways, or topics should be included. For example, giving away small objects that could be swallowed by toddlers should be avoided at family oriented health fairs.

Duties

- Identify key health topics and booths for the target audience.
- Determine the appropriate kinds of screenings/services, if any, for the target audience, such as:
  - Blood cholesterol (total, HDL, LDL, and triglycerides)
  - Blood glucose
  - Blood pressure
  - Skin cancer
  - Lung capacity
  - Vision screening
  - Glaucoma screening
  - Hearing tests
  - Foot care
- Plan and arrange for booths from agencies, such as the American Heart Association, American Cancer Society and the Arthritis Foundation, etc.
- Plan and arrange for types of clinical staff.
- Plan for meeting universal precautions if drawing and handling blood, etc.
- Plan for the delivery of results to participants.

Plan and arrange for treatment referrals for participants with abnormal results, both immediately and longer term. For example, if someone has a very high blood glucose or blood pressure, where can they be seen immediately?
• Define and review the kinds of health information, brochures, and giveaways appropriate for the target audience.

• Plan for immunizations that are appropriate for the target audience.

• Plan for obtaining consent forms for all individuals having any screening procedure or immunizations. A parent or legal guardian must sign for children under 18 years of age.

• Plan and arrange for “Ask a Doctor,” “Ask a Nurse,” “Ask a Podiatrist,” “Ask a Pharmacist,” etc. booths to provide information about the types of services these specialists provide. These booths are not designed to provide services or specific health advice.

• Plan for equipment needs, such as blood pressure cuffs, including children’s.

• Provide information on actual costs for clinical services, such as the lab work provided, to facilitate interpretation of the value of the health fair to the community.

• Plan to protect the confidentiality of participants regarding results.

• Results must only be given to the individual participant – not to the individual participant’s employer at a worksite health fair or to an insurance company.

• Do not use sign-up sheets that identify participants’ blood pressure, lab results, etc.

• If height and weight measurements are taken, for example, the measurements must be taken so no one can even accidentally be made aware of someone else’s results – this is true for children as well as adults.

  Note: determine the person’s BMI, and explain the meaning of the results. To calculate BMI, go to the Centers for Disease Control and Prevention’s calculator at http://www.cdc.gov/healthyweight/assessing/bmi/.

---

Not all health fairs require screenings.

Screening for blood pressure, cholesterol, blood glucose, etc. may be offered if it is appropriate for the target audience. If screenings are provided, the clinical subcommittee can assist in finding the appropriate providers, ensuring universal precautions are followed and results are accurate.

Remember to prepare for a person to be found with dangerously high blood pressure or glucose during the health fair.
Administrative Subcommittee

Depending on the size of the health fair, this subcommittee might need to be broken into smaller subcommittees. For example, the facilities subcommittee might be in charge of finding an appropriate location, developing a floor plan and map, and decorating. Another subcommittee might be needed to take care of food, while an additional subcommittee might be in charge of procuring door prizes, entertainment, decorations, games, and incentives. Another subcommittee might take care of the clerical duties, such as creating forms and signs. These assignments may be given within the Planning Committee.

Facilities Subcommittee

The facilities subcommittee should consider the following when selecting facilities:

- Inside versus outside: If the health fair is outside, a contingency plan will be needed for bad weather, including wind. Booth workers may need sunscreen.
- Plan for equipment and electrical needs.
- Are tables and chairs available?
- Are adequate restroom facilities available? *Are rentals of portable bathrooms required and has this been budgeted?*
- Are drinking water and refreshments available?
- Parking: Is it adequate? *Have volunteers directing fair visitors on where to park.*
- What type of cleanup is required? *Have volunteers assigned to this task before the fair.*
- Is the location easy to find?
- Is the location near transportation?
- Is the location easily accessible for the target audience? For example, is there a safe place for school children on a bus to load and unload?
- Plan for security. *Where can purses and other personal items of the Fair Volunteers and Exhibitors be kept safely during the fair?*
- Plan locations for exhibit booths (competing agencies do not like being right next to one another).
- Create a map for participants to locate booths of interest at the fair, as well as essential services like restrooms and water fountains.
- Create and post signs at the fair for booths and directions to restrooms, water fountains, refreshments, entertainment, first aid, lost parents, and exits. Signs may be created by the clerical subcommittee.
Procurement Subcommittee

The duties of the procurement subcommittee include:

- Plan for and obtain incentives, giveaways, brochures, promotional items, bags to collect fair brochures and giveaways, and door prizes.
- Secure decorations, and decorate the day of the fair.
- Plan for and obtain supplies, including:
  - Garbage cans
  - Garbage bags
  - Velcro
  - Tablecloths
  - Pens, pencils
  - Paper, notebooks
  - Extension cords
  - Surge protectors
  - 3-prong adapters
  - Tape
  - Scissors
  - Staplers

Food Subcommittee

The food subcommittee is responsible for refreshments. When deciding on the types of refreshments to serve, consider:

- Appropriateness of the refreshments
- Sources for the refreshments
- Eating areas
- Food safety

Consider cooling and refrigeration if food is involved in the health fair. Be sure that permit requirements are met.
Clerical/Staffing/Scheduling Subcommittee

Duties of the clerical/staffing/scheduling subcommittee include:

- Provide the necessary clerical support, including writing letters and invitations, and creating the following forms:
  - Sign-in or registration forms
  - Evaluation forms for participants and exhibitors (see Appendix for Sample Participant Evaluation of the Health Fair and Sample Exhibitor’s Evaluation forms)
- Plan for setup and cleanup the day of the health fair; procure adequate staff and/or volunteers.

Marketing and Public Relations Subcommittee

Duties of the publicity/community relations subcommittee include:

- Develop and disseminate posters, flyers, and mailings (see Sample Promotional Flyers and Tools in the Appendix).
- Develop and disseminate announcements to the media, including radio, TV, newspapers, store bulletin boards, church bulletins, etc.
- Design a “pocket badge” that can be worn by the committee members, exhibitors, and other volunteers just prior to the health fair. These badges could have a slogan reading, “I’m Going to the Health Fair” or “See You at the __________ Health Fair!”
- Involve youth by asking them to make and display posters; have a poster contest.
- Include health fair information in county newsletters.
- Ask municipal leaders to proclaim the week of the health fair as “Health Week in __________ County.”
- Place flyers in grocery bags, bank statements, utility bills, and other regular mailings.
- Include a brief announcement about the health fair in church bulletins.
## Health Fair Time Table

<table>
<thead>
<tr>
<th>STEP</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>STEP 1</td>
<td>Select chair or co-chairs. Select and meet with planning/coordinating committee.</td>
</tr>
<tr>
<td>STEP 2</td>
<td>Form subcommittees and appoint subcommittee chairs.</td>
</tr>
<tr>
<td>STEP 3</td>
<td>Select dates and times, and secure a location for the health fair.</td>
</tr>
<tr>
<td>STEP 4</td>
<td>Send out a save the date to potential participants and exhibitors.</td>
</tr>
<tr>
<td>STEP 5</td>
<td>Provide written confirmation of the event details to exhibitors.</td>
</tr>
<tr>
<td>STEP 6</td>
<td>Order brochures from external agencies.</td>
</tr>
<tr>
<td>STEP 7</td>
<td>Organize printed materials such as registration forms and flyers.</td>
</tr>
<tr>
<td>STEP 8</td>
<td>Organize needed equipment such as chairs, tables, and first aid supplies.</td>
</tr>
<tr>
<td>STEP 9</td>
<td>Draw a floor plan. Consider traffic flow and lines for screening, location of electrical outlets, and space requirements for each booth. Provide the floor plan to each exhibitor.</td>
</tr>
<tr>
<td>STEP 10</td>
<td>Meet with subcommittee chairs one month before the health fair is scheduled and review their progress towards the implementation of plans.</td>
</tr>
<tr>
<td>STEP 11</td>
<td>Set up tables, equipment, refreshments, etc. the night before the fair.</td>
</tr>
<tr>
<td>STEP 12</td>
<td>Troubleshoot, and welcome participants, press, and special visitors.</td>
</tr>
<tr>
<td>STEP 13</td>
<td>Clean up; return borrowed equipment.</td>
</tr>
<tr>
<td>STEP 14</td>
<td>Tabulate evaluation results and submit newspaper articles.</td>
</tr>
<tr>
<td>STEP 15</td>
<td>Write thank you letters to all who assisted in the health fair – volunteers, exhibitors, and donors.</td>
</tr>
<tr>
<td>STEP 16</td>
<td>Follow-up on referrals from the screenings, evaluate the health fair and report accomplishments and in-kind volunteer donations.</td>
</tr>

</table>
Resources

Call 1-800-ASK-UGA1 to contact your local Extension Office for information about agencies that may be able to provide resources on many of these topics. The UGA Cooperative Extension extends lifelong learning to the people of Georgia through unbiased, research-based education in agriculture, the environment, communities, youth and families. In addition, the Gwinnett Helpline has some resources that you might not find below. The Helpline number is 770-995-3339.

ALZHEIMER’S

- Alzheimer’s Association - Metro Atlanta Regional Office
  http://www.alz.org/georgia  24/7 Helpline: 1.800.272.3900
  We provide caregivers and families with comprehensive online resources and information through our Alzheimer’s and Dementia Caregiver Center, which features sections on early-stage, middle-stage and late-stage care giving.

Activities: memory games, puzzles, games

ARTHRITEIS

- Rheumatologist: Contact a local rheumatologist (doctor who treats arthritis and other inflammatory illnesses of the muscles and joints) to demonstrate different types of apparatus that can help those with arthritis to function better in daily life.

- Arthritis Foundation
  http://www.arthritis.org/

Activities: massage, yoga and Tai Chi demonstrations
BACK HEALTH

- **Orthopedists, Neurosurgeon, Chiropractor:** Ask a local medical professional to show a display of the backbone and discuss the importance of posture and having a healthy back.

- **UGA’s How to Take Care of Your Back document**
  [https://medlineplus.gov/ency/article/002119.htm](https://medlineplus.gov/ency/article/002119.htm) this resource shows the correct posture for standing, sitting, lifting, and sleeping, as well as some basic exercises to help your back.

Activities: stretching, chair massage, yoga and Tai Chi

CANCER

- **American Cancer Society**
  [www.cancer.org](http://www.cancer.org)

- **National Cancer Institute, Cancer Information Services**
  [www.cancer.gov](http://www.cancer.gov) (800) 4-CANCER, 800.422.6237
  Cancer Information Services (CIS) is a nationwide network of 19 regional field offices supported by the National Cancer Institute (NCI). It provides accurate, up-to-date information on cancer to patients and their families, health care professionals, and the general public. CIS can provide specific information in English and Spanish about particular types of cancer, as well as information on how to obtain second opinions and the availability of clinical trials. Each CIS office has access to the NCI treatment database, PDQ, which offers callers the most current state-of-the-art treatment and clinical trial information.

- **UGA Skin Cancer Prevention document**
Susan G. Komen of Greater Atlanta
www.komenatlanta.org

Komen of Greater Atlanta’s website offers information on understanding breast cancer, ways to get involved in fundraising, community events and news.

Susan G. Komen Greater Atlanta Affiliate
3525 Piedmont Road
Building 5, Suite 215
Atlanta, GA 30305
Phone: 404-814-0052

Activities: cancer screenings, sunscreen vendors, food presentations, smoking and lung demonstration

CHILD HEALTH CARE RESOURCES

- Health Care Provider: Ask a local health care provider to present a short program on child health issues, such as:
  - How to care for a child with a fever
  - Preventing and treating colds and flu
  - Dealing with bed-wetting
  - Preventing ear infections and swimmer’s ear

- American Academy of Pediatrics
  www.aap.org

The American Academy of Pediatrics provides resources on a variety of child health topics, parent corner, and professional and educational publications from a reputable, reliable site.

- Children’s Healthcare of Atlanta

  Women's, Child & Adolescent Health Services
  www.gnrhealth.com/services/maternal-child-adolescent-health-services
  Offers immunizations, health checks, and hearing, vision and dental screening for school entry. **The Children First Program** is the point of entry for Children’s Medical Services and referrals for Gwinnett.

• KidsHealth
  www.kidshealth.org

• Mason Pediatrics – Lawrenceville
  This agency provides pediatric care to the uninsured, underinsured and insured children of our area. In our clinic, seven board-certified pediatricians have dedicated themselves to providing top-quality primary care and well-child care to children from birth to 15 years of age.

  Activities: bingo, relays, coloring sheets, games, screenings

**CPR & FIRST AID**

• Emergency Medical Services / Emergency Medical Technician: Ask your local EMS, EMT, to demonstrate CPR, first aid techniques.
• **CPR/AED training classes:** Gwinnett County Fire & Emergency Services Headquarters Registration for all classes is mandatory. To register please send an email to fireprograms@gwinnettc county.com or call 678.518.4850

• **Project Save – Children’s Healthcare of Atlanta**
  [https://www.choa.org/medical-services/cardiac-care/project-save-program](https://www.choa.org/medical-services/cardiac-care/project-save-program)

• **American Red Cross**
  [www.redcross.org](http://www.redcross.org)
  Find resources on where to take CPR, first aid and automated external defibrillator training classes.

**Activities:** CPR training, first aid presentations

**DENTAL CARE**

• **Dentist, Dental Hygienist, Orthodontist:** Ask a local dentist to provide an exhibit or booth on dental care.

• **American Dental Association**
  [www.ada.org](http://www.ada.org)

**Activities:** tooth brushing, dental giveaways, games

**DIABETES**

• **Endocrinologist:** Contact a local endocrinologist who works with diabetes patients to offer advice or a short program about some of the following: differences between type 1 and type 2 diabetes, medications, wound care, diabetes meters and other diabetes supplies, healthy diet for those with diabetes, etc.
• **UGA Diabetes Information**  
  You will find: Pre-Made Menus, Newsletters, handouts with general information, food selection and preparation, physical activity, medical management, prevention and complications, recipes, and Fast Food Frenzy: Making Healthier Choices.

  Phone: 770-513-9738

  **Norcross Health Center**
  5030 Georgia Belle Court
  Norcross, GA 30093
  Phone: 770-513-9738

  **Activities:** cooking demonstrations, exercise activities such as Zumba, ballroom dancing
OLDER ADULT HEALTH

- **Gwinnett Senior Services**
  [www.gwinnettseniorservices.com](http://www.gwinnettseniorservices.com)
  Invite a representative from your local senior center to have a table or booth with handouts about upcoming events for older adults.

- **Gwinnett Council for Seniors**
  [www.gwinnettcouncilforseniors.org](http://www.gwinnettcouncilforseniors.org)

- **Gwinnett Parks and Recreation**
  [www.gwinnettparks.com](http://www.gwinnettparks.com)

- **American Association for Retired Persons (AARP)**
  [www.aarp.org](http://www.aarp.org)
  Contact AARP for information on older adult health as well as benefits available to seniors country wide.

- **National Council on Patient Information & Education**
  [www.talkaboutrx.org](http://www.talkaboutrx.org)

Activities: Invite a representative from your local senior center to have a table or booth.

PHYSICAL ACTIVITY

- **Exercise Physiologist, Physical Therapist, Sports Trainer**
• **Centers for Disease Control – Physical Activity Information**
  www.cdc.gov/physicalactivity/everyone/health/index.html
  This website describes the benefits of physical activity. Regular physical activity helps improve your overall health and fitness, and reduces your risk for many chronic diseases.

• **American Heart Association - Jump Rope**
  Ask the local American Heart Association (AHA) to promote the “Jump Rope for Heart” fundraiser activity. Provide information on the importance of physical activity, and involve participants. AHA have ropes available since they use them during their “Jump Rope for Heart” fundraiser. Youth volunteers can demonstrate jump-roping techniques and encourage adults and children to participate.

• **The Right Exercise Equipment**: Ask a local exercise professional.

• **Welcome to Walk Georgia!**
  www.walkgeorgia.org
  The goals of this program, which is sponsored by the University of Georgia Cooperative Extension and its partners, are to help you: Develop regular physical activity habits, get healthier and more physically fit, and have fun! Call 1-800-ASK-UGA1 to contact your local Extension Office.

• **Fitness Centers, Recreational Centers, YMCA**
  J.M. Tull-Gwinnett Family YMCA
  Email: tgy@ymcaatlanta.org
  Phone: 770-963-1313

• **Robert D. Fowler Family YMCA**
  Email: fpy@ymcaatlanta.org
  Phone: 770-246-9622
• **Fun in the Gym**
  Ask local fitness or recreational centers (aerobics, fitness, or karate experts) to provide free, hands-on activities, such as beginning step aerobics, beginning zumba steps, a bike for spinning, kick-boxing, or information on the benefits of strength training, flexibility exercises, resistance bands, stability and balance balls, strengthening the core muscles, etc. A large area is required for this exhibit, and many volunteers should be available to assist participants. Rope off the area, and have a designated entrance/exit.

• **Hula Hoops**: Invite your local YMCA or other recreational facility to the health fair to promote their programs. To get attention and physical activity involvement, ask youth volunteers to demonstrate how to hula hoop and ask for audience participation. Most YMCAs and recreational departments (city, county, college, university, etc.) have hula hoops. If necessary, check with local discount stores for hula hoops and ask them to donate the hula hoops for your event. (The requests for donations may need to be in writing.)

• **Gwinnett Parks and Recreation**
  www.gwinnettparks.com

• **Gwinnett County Fitness Centers**
  www.Anytimefitness.com/
  www.lifetimefitness.com
  www.knockout-crossfit.com
  www.lafitness.com
  www.goldsgym.com
  www.trainwithpain.com

• **Centers for Disease Control & Prevention**
  www.cdc.gov/physicalactivity/everyone/health/index.html

  This resource describes the benefits of physical activity: weight control, health risk reduction, improved mood, etc.
• **President’s Council on Fitness, Sports, & Nutrition**  
  [www.fitness.gov](http://www.fitness.gov)  
  Here, you’ll find the Physical Activity Guidelines for Americans, as well as motivational strategies to get physically active.

• **Wellness Council of America**  
  [https://www.welcoa.org/resources/](https://www.welcoa.org/resources/) 

• **Georgia SHAPE**  

Activities: sports activities, running 5K

## POISON PREVENTION

• **American Association of Poison Control Centers**  
  [www.aapcc.org](http://www.aapcc.org)  
  Poison HELPLINE: 1-800-222-1222  
  This website provides resources on poison prevention, treatment, and emergency help.

• **Indoor Air Quality Information Clearinghouse**  
  [www.epa.gov/iaq](http://www.epa.gov/iaq)  
  These specialists provide information, referrals, publications, and database searches on indoor air quality. Their information includes pollutants and sources, health effects, control methods, commercial building operations and maintenance, standards and guidelines, and federal and state legislation.

Activities: prescription drop-offs, teen guide programs, pharmaceutical community organizations

## PRENATAL CARE

• **Nurse Practitioners, Midwives, Obstetrician, and Other Health Care Providers (TP, AP)**  
  These professionals can be excellent speakers on a variety of topics surrounding prenatal care. The best website for information about this subject is
http://fnic.nal.usda.gov/lifecycle-nutrition/pregnancy it links you to many other sources like http://www.womenshealth.gov/pregnancy/ with information and news about pregnancy preparation, what happens during each of the three trimesters of pregnancy, fertility, labor and more.

- **March of Dimes**
  [www.marchofdimes.com](http://www.marchofdimes.com)
  The March of Dimes site has excellent handouts and topic ideas for prenatal care. Consider pairing your event with a March of Dimes Walk for Baby event.

- **National Center for Education in Maternal & Child Health**
  [www.ncemch.org](http://www.ncemch.org)
  This organization’s resources address the health and well-being of the nation’s children and families, including physical, behavioral, emotional, mental health, etc.

Activities: baby safety challenge activities, baby races, diapering, games etc.

**SAFETY**

- **Consumer Product Safety Commission:**
  [www.cpsc.gov](http://www.cpsc.gov)
  This commission’s resources address product safety and consumer health, as well as product recalls.

- **Child Safety information:**
  UGA offers information about Injury Prevention and Control.
• **Traffic Safety - Georgia Traffic Injury Prevention Institute (GTIPI)**
  GTIPI is an educational outreach unit of The University of Georgia. GTIPI works in close collaboration with organizations such as Safe Kids Georgia, DHR's Injury Prevention Section, private industry, the Georgia Motor Trucking Association, law enforcement agencies and other safety educators.

  GTIPI  
  1070 Culpepper Drive, Suite 300  
  Conyers, Georgia 30094  
  Telephone: (678) 413-4281 or toll free (800) 342-9819  
  Facsimile: (678) 413-4293  
  Email: gti@uga.edu  
  Web: [www.ridesafegeorgia.org](http://www.ridesafegeorgia.org)

• **National Highway Traffic Administration (NHTSA)**
  Public information and education on safety belts, car seats, pedestrian, bicycle and motorcycle safety and impaired driving.

**DOMESTIC VIOLENCE**

• **Partnership Against Domestic Violence**
  Provides information on relocation, legal advice, court escorts and more. Confidential Helpline: 770-963-9799.

• **Gwinnett Sexual Assault Center and Children’s Advocacy Center**
  [www.gsac-cac.org/home.asp](http://www.gsac-cac.org/home.asp)  
  Crisis Hotline: 700-476-7407  
  Provides 24/7 services for rape and child sexual abuse survivors.

  P.O. Box 1329  
  Duluth, Georgia 30096  
  Office: 770-497-9122 Fax: 770-623-4218

Activities: personal safety training
