

## On-Site Food Safety Training

Gwinnett County Environmental Health offers a basic food safety course that is taught at the workers own food service establishment. The instructor is an Environmental Health Specialist who is also an experienced food service inspector. The instructor is able to show workers how to conduct safe food preparation and handling on their own equipment at their own facility. While this course does not meet the requirement for a certified food safety manager, it can be an invaluable training for your lower management and food handlers.

To register to have this course taught at your facility, contact our office at (770) 963-5132 located at 455 Grayson Highway Suite 600, Lawrenceville, GA 30046 and ask to speak to the Area Supervisor for your facility's location. The cost of the course is \$250 for up to 6 students.
