COVID-19 Testing Resources

1. Testing at one of our SPOCs: Lawrenceville, Lilburn, Newton, or Rockdale
   a. SPOC testing is free; however it fills up quickly
   b. All appointments must be scheduled through our website: www.gnrhealth.com/covid-19-info. Appointments can be booked up to **THREE** days in advance.
2. Testing with Walgreens
   a. Walgreens offers drive-thru COVID-19 testing at select locations in partnership with PWNHealth Provider Network. Testing is **FREE** for eligible individuals. The link to schedule a test online is here https://www.walgreens.com/findcare/covid19/testing
   b. In order to be tested at Walgreens you need to take a quick survey to see if you are eligible. Eligibility is based on criteria established by the CDC and state and federal guidelines.
      i. When filling out the survey 1. You agree to terms and conditions. 2. You fill out your contact information (name, DOB, gender, email, and phone number). Then you are prompted to answer 8 questions, the first question 1. is about any symptoms you have, 2. Is about if you have had contact with a diagnosed or presumed COVID-19 case 3. Have you had contact with someone who is sick but not diagnosed with COVID-19. 4. In the last 2 weeks have you had any exposures such as international travel, live or visited an area with community spread COVID-19 5. Do you work at the following (healthcare facility or as a first responder) 6. Are you 65 or older 7. Do you have any of the following conditions (underlying conditions) 8. Are you currently pregnant? After answering these questions it determines eligibility and you can request an appointment.
      ii. After answering the above questions your eligibility is determined, after taking the survey myself indicating that you have been exposed to a confirmed COVID-19 case (without symptoms) it allowed me to proceed to scheduling. When you get to the end after the survey you have the option to request the appointment online or to call and have someone schedule you over the phone.
3. Testing at CVS
   a. CVS offers **free** COVID-19 tests. Results take 2 – 4 days but may take 5 – 7 during peak demand. You can look up a testing site and schedule a test here: https://www.cvs.com/minuteclinic/covid-19-testing
   b. At this website you will be prompted to enter the zip code where you live.
   c. After entering your zip code you are prompted to an assessment to determine if you qualify for COVID-19 testing.
      i. You are prompted to enter your DOB, symptoms, medical conditions, if you have been instructed to get testing by your health department or a medical professional, if you work or live in a treatment facility, group home, or other group setting, if you are a healthcare worker or first responder, if you are a caregiver to someone over the age of 85, and if you live in a nursing home or long-term care facility.

Last Update: 7/22/20

This is not an exhaustive list. It will be updated bi-weekly or as we are made aware of changes or additional testing sites.

      ii. After answering these questions you are prompted to testing facilities based on your location. Based on my attempt to schedule online you did not need to have symptoms to get scheduled. All you needed to indicate is that you were instructed to test by the health department or a medical professional.

      iii. It gave me the option to schedule three days in advance. Scheduling availability was very limited.

4. Testing at Walmart Pharmacies/Parking lots https://www.doineedacovid19test.com/

    a. COVID-19 tests are being offered in some Walmart parking lots through eTrueNorth and Quest Diagnostics.

      i. ETrueNorth Testing Locations (both are currently full through next Tuesday, they appear to be open every other day from 7:00 AM – 9:00 AM). Testing appears to be free through this service.

        1. Tucker GA website: https://www.doineedacovid19test.com/Tucker_GA_366.html

        2. Stone Mountain GA website: https://www.doineedacovid19test.com/StoneMountain_GA_365.html

        3. Stonecrest GA website: https://www.doineedacovid19test.com/Stonecrest_GA_364.html

      ii. Quest Diagnostics – testing is located in the Walmart pharmacy drive thru. They will need a prescription request from their doctor to get an observed self-collection COVID-19 test or a request from their health plan. Appointments only available on select days. Some out of pocket fees may apply based on insurance. Schedule appointments here: https://www.doineedacovid19test.com/StoneMountain_GA_365.html

        1. Gainesville GA

        2. Marietta GA

        3. Snellville GA
