

Some things to consider

- The current average CORE test site wait time is 30 minutes. Be aware that the closing time for each test site signifies when staff will begin packing up, NOT when the last patient can join the line. Plan to arrive at the test site at least an hour before scheduled close.
- Test sites will close early if/when the 500-test daily max. is reached.
- Walk-up patients are advised to bring a folding chair, a bottle of water, and an umbrella (if the forecast calls for rain) for while they wait.
- CORE test sites do not have public restroom access.
- If CORE's on-site weather monitoring devices indicate lightning within 6 miles of the site, the site will be shut down for 20 minutes. If a lightning delay is triggered within the last hour of operating, the site may close early for the day.
- Testing site locations, dates, and/or times are subject to change. Visit CORERESPONSE.ORG/COVID19-ATLANTA the day of testing to confirm test site information.

*****For faster service, preregister at COVID19.DPH.GA.GOV.**

Getting your test results

- CORE returns COVID-19 test results by phone and/or email.
- CORE utilizes the lab services of Mako. Test result timelines vary as lab demands fluctuate, but it is safe to expect results back within 3-5 days of taking a test.
- If it takes over a week to receive results, you can call the county hotline at **844-625-6522**. If you call, be prepared to give your full name, phone number, date of birth, and date and location of your COVID-19 test.
