# **Gwinnett, Newton, & Rockdale County Health Departments**

### **COVID-19 District Overview,** data as of 1pm July 8, 2021

The COVID-19 pandemic is an emerging and dynamic situation; therefore, our data and recommendations are subject to change. This report provides a snapshot of COVID-19 illnesses, test positivity rates, vaccinations, and outbreaks, in response to the COVID-19 pandemic. The purpose of this report is to provide situational awareness to our district partners and community members. For more information on the data used in this report, how each variable is defined, and the limitations of this data, please click on this <u>link</u>.

For maps with zip code level case rates check out our COVID-19 Dashboard by clicking on the image below!

# Gwinnett, Newton, & Rockdale County Health Departments

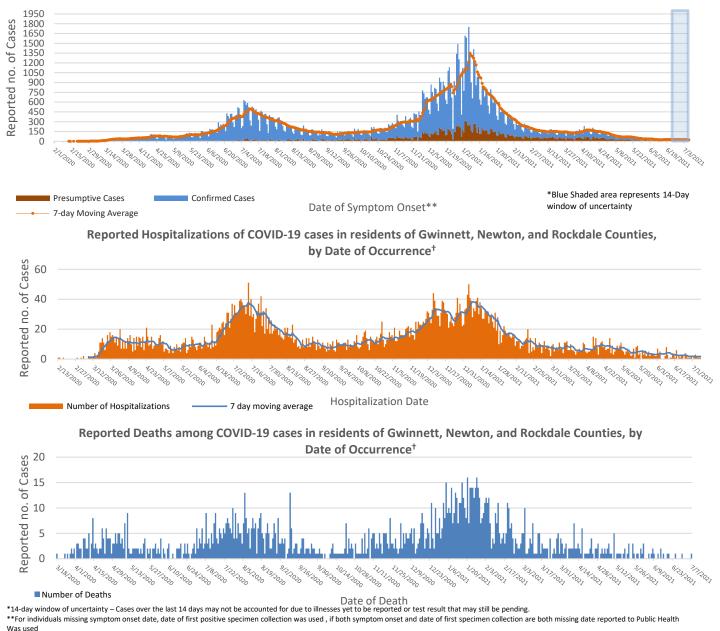

### COVID-19 District Overview, data as of 1pm July 8, 2021

Gwinnett, Newton, and Rockdale County Health Department's Epidemiology Program is responsible for investigating every case of COVID-19 with laboratory evidence of recent infection. The data displayed here represents the Epidemiology Program's activities and provides a portrayal of the current situation in the district.

Per Gwinnett, Newton, and Rockdale County Health Departments reporting policy only COVID-19 cases with laboratory evidence of recent infection that reside within the three counties that make up the district are displayed here. According to the Centers for Disease Control and Prevention the case definition of COVID-19 case with laboratory evidence of recent infection does not include serology (i.e. antibody tests). These tests are reportable, but because they are not included in the case definition for a COVID-19 case with laboratory evidence of recent infection, are not displayed here.

Reported COVID-19 cases in residents of Gwinnett, Newton, and Rockdale Counties, as of 7/8/2021<sup>†</sup>

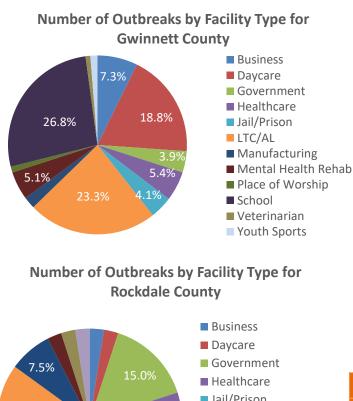

Represents total confirmed and presumptive cases

# Epidemiology Overview of COVID-19 Vaccinations Among District Residents

Data as of 1pm July 8, 2021

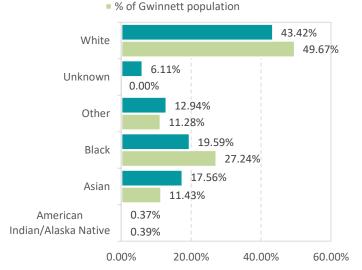

# Epidemiology Overview of COVID-19 Vaccinations

% of Gwinnett residents with at least one dose compared with % of Gwinnett population Data as of 1pm July 8, 2021

The data on this page compares the demographic characteristics among Gwinnett residents who have received at least one vaccine dose to the demographic characteristics of the Gwinnett population. The light green bar represents the % of individuals identifying as that group living in Gwinnett. The blue bar represents the % of Gwinnett residents who have received at least one vaccine dose by group, out of all residents who have received at least one dose. For example, if there are 100 Gwinnett residents who have received at least 1 dose and 20 of the residents identify as black, the percentage represented by the blue bar below would be 20%. For the green bar, if there are 100 residents in Gwinnett and 30 of them identify as black the percentage displayed by the green bar will be 30%. Data presented here differs from last week in order to be more consistent with DPH and CDC.

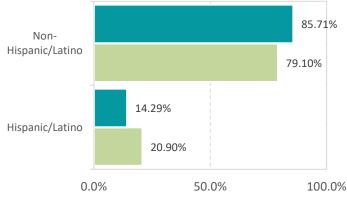

> % of Gwinnett residents with at least 1 dose compared with % of Gwinnett Pop by race

## % of Gwinnett residents with at least 1 dose compared with % of Gwinnett Pop by ethnicity

• % among persons w/at least dose • % of Gwinnett population

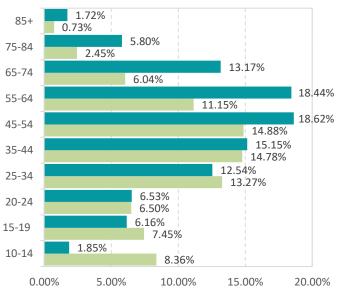

Data displayed here is obtained from the Georgia Department of Public Health Vaccine Dashboard

### 444,103 (48.5%) Residents have received at least one dose. 398,561 (43.6%) Residents are fully vaccinated.
