Additional Information (if needed):

If it is determined the existing septic system needs to be modified or relocated, you must also obtain a Residential or Commercial Septic System Permit at that time. A list of approved soil classifiers can be found at: <http://dph.georgia.gov/wastewater-management>. An additional fee will be required for a Residential or Commercial Septic System Permit (if required). Please allow our office 10 working days to review the plans and conduct a site visit.
